SUHANI PATEL

React.js Developer & Full-Stack MERN Software Engineer

Indore, Madhya Pradesh, India • +91 9009212605 • shuwanipatel@gmail.com

LinkedIn: linkedin.com/in/Suhani-Patel-WebDev • GitHub: github.com/SuhaniPatel36

PROFESSIONAL SUMMARY

Computer Science Engineering undergraduate and Full-Stack MERN Developer with production internship experience architecting enterprise management systems, high-speed React dashboards, and secure REST APIs. Proven track record in boosting operational workflow efficiency by 85.6% and accelerating client-side rendering speed by 80% through memoization, modular component decoupling, and database index tuning. Proficient in React 19, JavaScript (ES6+), Node.js, Express.js, MongoDB, and Tailwind CSS.

TECHNICAL SKILLS

Languages & Core: JavaScript (ES6+), Core Java, HTML5 Semantic, CSS3 / Modern Flexbox & Grid, SQL
Frontend Technologies: React.js (v18 & v19), Context API, Redux Toolkit, Tailwind CSS, React Router, Vite, Framer Motion
Backend & APIs: Node.js, Express.js, RESTful Architecture, JWT Authentication, Role-Based Access Control (RBAC), Axios
Databases: MongoDB, Mongoose ODM, MongoDB Atlas Cloud Clusters
Tools & Methodologies: Git, GitHub, Postman API Testing, Vercel, Render, Clean Architecture, Performance Optimization, Agile/Scrum

PROFESSIONAL WORK EXPERIENCE

MERN Stack Developer Intern — Keen Solution **Indore, India | Jan 2025 – Present**

- Architected modular, reusable UI components using React.js and Tailwind CSS, reducing client-side render latency by 80% using memoization hooks (useMemo, useCallback, React.memo).
- Engineered and secured 15+ RESTful endpoints utilizing Node.js, Express.js, and JWT-based authentication with role-based access control (RBAC).
- Automated enterprise management and ERP operational workflows, resulting in an 85.6% measurable efficiency gain and a 60% reduction in manual data entry.
- Constructed MongoDB aggregation pipelines and normalized document models, optimizing data retrieval speeds by 45%.
- Participated in daily Agile standups and sprint planning, collaborating on cross-browser compatibility across 100% of target mobile and desktop devices.

Placement Cell Student Coordinator — Malwa Institute of Science & Technology **Indore, India | 2023 – 2025**

- Collaborated with corporate recruiters and college administration to coordinate campus recruitment drives, achieving an 80% placement rate.
- Conducted technical mock interviews, resume screening, and coding guidance in JavaScript and foundational algorithms for 150+ undergraduate peers.

FEATURED SOFTWARE ENGINEERING PROJECTS

BizSuite — Enterprise Resource Planning (ERP) Platform | React.js, Node.js, Express, MongoDB, Tailwind CSS github.com/SuhaniPatel36/bizsuite-erp

- Built an enterprise-grade ERP web platform centralizing inventory tracking, employee management, and department workflows with RBAC security.
- Designed real-time graphical analytics dashboards with dynamic state sync, boosting business operational speed by 85.6%.

Urban Taal — Dance Academy & Certification Automation System | MERN Stack, PDFKit, Context API github.com/SuhaniPatel36/urban-taal-management

- Digitized student enrollment, recurring fee billing, and attendance, saving 60% manual administrative time.
- Engineered an automated server-side PDF generator producing tamper-proof student certificates and printable salary invoices.

Full-Stack Scalable E-Commerce Web Application | React 19, Node.js, Express, MongoDB, JWT github.com/SuhaniPatel36/mern-ecommerce-platform

- Developed a production-grade online store with protected routes, JWT tokens in HTTP-only cookies, and instant cart synchronization.
- Boosted frontend responsiveness by 80% utilizing memoized component trees and optimistic cart updates.

NeuroLearn — AI-Assisted Adaptive Learning Platform | React.js, Node.js, Express.js, Python Flask Microservice github.com/SuhaniPatel36/neurolearn-ai-platform

- Engineered a hybrid architecture interfacing an Express REST API with a Python Flask machine learning microservice for student risk scoring.
- Delivered instructor and student role-based dashboards featuring dynamic chart visualizations and automated assessment workflows.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science & Engineering **2022 – 2026 | Final Year | CGPA: 7.9+**
Malwa Institute of Science & Technology, Indore, Madhya Pradesh

Diploma in Computer Applications (DCA) **2022 – 2023 | Graduated with Distinction**
Makhanlal Chaturvedi National University, Indore, Madhya Pradesh
